20V

PADDLE MIXER 20V

VIBCMCC20

The 20V Cement Glue Paddle Mixer (VIBCMCC20) is compatible with the 20V range interchangeable batteries (2Ah, 3Ah, 4Ah, 5Ah and 6Ah). Homogeneously mixes large quantities of thin and thick materials with different viscosities and densities, such as paint, mortar and cement glue. It includes a mixing paddle that allows you to mix up to 60 litres. For the best results, this machine has a rotational speed selector with 2 ranges, allowing you to adjust and control the speed of the paddle according to the needs of the material throughout the mixing process. Easy to handle, with its ergonomic handles, it increases user comfort and safety during work. It is also equipped with an M14 thread for use with the most common M14 mixing paddles. The robustness of this model is guaranteed by the metallic gearbox, which gives it greater durability.

Key features

- **Maximum versatility - Mixes materials of different viscosities, such as paints, mortars and cement glue, with total efficiency;**
- **60L Capacity - Includes a paddle capable of mixing up to 60 litres;**
- **Metallic gearbox;**
- **Variable speed;**
- **ON/OFF switch lock button;**
- **Rotational speed range selector;**
- **Rotational speed regulator.**

Specifications

Maximum mixing capacity	**60 L**
Metal gearbox	**Yes**
Motor type	**Carbon brushes**
No-load speed - 1st speed	**0 - 420 rpm**
No-load speed - 2nd speed	**0 - 710 rpm**
On/off switch lock button	**Yes**
Paddle diameter	**100 mm**
Paddle length	**590 mm**
Sound power level (LWA)	**81 dB**
Speeds	**2**
Spindle thread	**M14**
Variable speed	**Yes**
Supply voltage	**20V**
