

HAY FORK WITH IRON HANDLE VI1341

The 2-tooth hay fork made of tempered steel is the perfect tool for those working with the harvesting and handling of hay and straw. Weighing 1.4 kg, it provides light and efficient handling, ideal for tasks that require agility. The iron handle offers exceptional durability, ensuring that the tool withstands intense use in various conditions. With its teeth designed to penetrate easily into the straw, this fork facilitates movement and aeration, making it an indispensable tool for farmers and gardeners.
