

TRAILER MOD.7

VIAME7A

The VITO Mod. 7 Trailer, designed for use with VIMEDTD7 motor tillers, is perfect for transporting loads of up to 325 kg in agricultural and rural environments. Equipped with 410 x 100 mm pneumatic wheels and steel rims, this trailer offers excellent durability and strength for use on uneven terrain. The steel chassis provides a robust structure, ideal for withstanding demanding working conditions. With a brake and a rear reflective plate, this trailer ensures safe transport, making it the ideal choice for those seeking efficiency in transporting agricultural loads.
