

LEAF BLOWER VACUUM - 40V VIBCAS40

VITO's 40V Leaf Blower Vacuum is the ideal solution for clearing leaves and debris from the outdoors quickly, versatilely and efficiently. Lightweight and easy to handle, this machine has 6 speed levels that allow you to adapt the intensity of the equipment to the type of work. In addition, it is equipped with a 35-liter collection bag, offering autonomy when carrying out long jobs. Thanks to the common EGO battery range and its ergonomic design, this machine promotes mobility and practicality when carrying out outdoor work.

Key features

- > 2-in-1 function, guaranteeing versatility;
- > Lightweight and practical design, reducing physical effort and facilitating continuous use;
- > 6 speed levels adjustable according to the volume of waste and type of task;
- > Autonomy provided by the 35L collection bag;
- > Powered by a shared battery from the EGO range (2Ah to 6Ah).

Specifications

Air speed	200 km/h
Grass bag capacity	35 L
Max. suction air rate	
Maximum flow rate	220 m³/h
Motor type	Carbon brushes
No-load Speed	8000 - 14000 rpm
Power	40 V DC (2x20V)
Sound power level (LWA)	
Speed setting levels	6
Suction speed
