

SLIDING MITRE SAW STAND 150KG VIBSE150

The VITO VIBSE150 mitre saw stand is a sturdy, versatile, and portable solution designed for professionals who value efficiency and convenience. Compatible with most mitre saws on the market, it features a strong metal frame with a load capacity of up to 150 kg. Its standout feature is the set of adjustable side extensions—height (81.5 to 91.5 cm) and width (up to 163.5 cm)—equipped with roller supports that make it easier to handle long workpieces safely and precisely. This system significantly improves workflow, especially during extended cuts. Additionally, its foldable legs and compact design make it easy to transport and store, whether in workshops or work vehicles. The quick-lock system allows you to mount and remove the saw without the need for extra tools, saving time during setup. Designed for stability, flexibility, and convenient transport, this stand is ideal for dynamic job sites where mobility and practicality matter.
