

WHEELBARROW PU WHEEL VICA1PU

With a payload of up to 150 kg and a capacity of 85 litres, allowing for the transport of large volumes, this wheelbarrow guarantees robustness even in the most demanding tasks. The square front tray facilitates the loading and unloading of bulk materials (such as sand, soil, or rubble), whether for construction or gardening work. Meanwhile, the polyurethane (PU) wheel requires no inflation and offers excellent resistance to wear and punctures, ensuring less maintenance compared to traditional wheels with air chambers. In addition, the protective rim at the front protects the wheel during use and when putting the wheelbarrow down, increasing safety during transport and facilitating its use.

Key features

- > Optimised capacity with an 85L tray for transporting large volumes.
- > Guaranteed strength, supporting up to 150 kg of payload.
- > PU wheel resistant to punctures, deflation, and wear.
- > Front rim for greater protection during transport and unloading.

Specifications

Capacity	85 L
Dimensions	820 x 640 x 580 mm
Load capacity	150 Kg
Tray	Square tray
Wheel guard	Yes
