

METAL LOG SAWHORSE

VICMCL

The Metal Sawhorse for Wood Cutting offers a load capacity of 200 kg, making it the perfect choice for those seeking a robust and efficient solution for cutting firewood. With teeth cut into the metal, this easel prevents the trunk from rotating during sawing, ensuring greater stability and safety throughout the process. Constructed from durable aluminum, it is also foldable, making it easy to store and transport. With dimensions of 795 x 880 x 320 mm, it can accommodate logs with a maximum diameter of 300 mm. Additionally, the easel is lightweight, weighing only 7 kg, yet strong enough to withstand demanding tasks. Ideal for use in backyards, rural areas, and any location where efficient and safe firewood cutting is necessary.

Key features

- > Ideal for cutting firewood with a diameter of up to 300 mm and a weight of up to 200 kg.
- > Foldable design for easy storage and transport.
- > Cut teeth in the metal ensure stability, preventing the trunk from rotating during sawing.
- > Robust structure with a metal thickness of 1.7 mm, offering greater durability.

Specifications

Foldable	Yes
Material	Aluminium
Max. log diameter	300 mm
Packaging dimensions	102 x 35 x 160 mm
Product weight	7 Kg
Size	795 x 880 x 320 mm
Weight capacity	200 Kg
Weight with packaging	7,4 Kg

Package Contents

10 metal bars
41 screws and fasteners
3 quick-release collet screws.
