

REVERSIBLE JACKET DUAL

VICRDL

The high-visibility side is made up of vibrant colours and reflective elements, guaranteeing maximum visibility in low light conditions, making it ideal for outdoor activities where safety is a priority. On the other hand, the casual side features sophisticated details, allowing for an easy transition from the professional environment to moments of leisure. What's more, the jacket DUAL is waterproof and cold-resistant, so it's ready to face working environments in demanding weather conditions. With its lightness in particular, it provides comfort without compromising mobility. Complementing its functionality, this reversible model includes 4 outer pockets (2 on each side of the jacket), offering ample and convenient space for storing essential accessories during all daily activities. Be ready for any situation without losing style and practicality with the VITO's Reversible Jacket DUAL.

Key features

- > This jacket is suitable for a variety of environments due to its combination of strength and low weight (20D 100% nylon);
- > AC coating - a layer of protection against humidity;
- > Zip fastening;
