

CURVED 3-TEETH BRUSH CUTTING BLADE

VIDCMC3

VITO's Curved Brush Cutting Blade guarantees efficient and precise cutting in dense vegetation, making it ideal for thinning and brush maintenance. This blade has been developed to offer superior performance in removing dense vegetation and tough undergrowth. With its three curved teeth design, this accessory makes it possible to make quick and precise cuts, reducing effort and fatigue for the user. Due to its shape, the blade guarantees a wide cutting area, increasing work efficiency. Made from high-resistance steel, this blade, compatible with brushcutters, stands out for its resistance and durability.

Key features

- > Made of steel, ensuring durability and resistance;
- > Efficiency guaranteed by the curved shape with three teeth;
- > It allows you to make quick and precise cuts.

Specifications

Cutting diameter	305 mm
Diameter of the hole	25 mm
Dimensions	245 x 35 mm
Packaging dimensions	280 x 250 x 50 mm
Product weight	0,642 kg
Standards	EN 847-1-2005
Teeth	3
Thickness	3 mm
Weight with packaging	0,752 kg
