

TELESCOPIC DRYWALL SANDER 710W VILGE710

This sander was developed for sanding walls, ceilings and drywall surfaces, offering a practical solution for preparation, levelling and finishing before painting or applying coatings. With a power rating of 710W, it delivers suitable performance for professional use and demanding renovation or construction tasks. The extendable shaft up to 1.6m makes it easier to reach high areas, reducing the need to use ladders constantly. In addition, vacuum cleaner compatibility and the 4.5m extraction hose help keep the work area cleaner, contributing to a more organised and comfortable operation. Variable speed adjusts the rotation to the type of surface and the desired finish, with 800-1700rpm for the round sanding pad and 3000-6000rpm for the triangular sanding pad. In addition, the quick-change pad fitting, hook-and-loop abrasive attachment, LED light and On/Off switch lock make operation more practical for continuous and higher-precision work.

Key features

- > 710W power for professional sanding performance;
- > Extendable shaft up to 1.6m, making ceilings and high areas easier to reach;
- > Dust extraction system compatible with a vacuum cleaner, helping keep the work area cleaner;
- > 4.5m extraction hose for greater freedom of movement during work;
- > Variable speed, adjusting rotation to the desired finish;
- > Round and triangular sanding pads for different surfaces;
- > Hook-and-loop fastening for quicker abrasive sheet replacement.

Specifications

Height	340 mm
Length	740 mm
Product weight	5.302 kg
Weight with packaging	11.068 kg
Width	245 mm
Maximum handle extension	1,6 m
No-load speed - round sanding backing pad	800 - 1700 rpm
No-load speed - triangle sanding backing pad	r 3000 - 6000 rpm
On/off switch lock button	Yes
Power cord	4,2 m
Quick fitting of the velcro pads	Yes
Round sanding backing pad	260 mm
Round Velcro backing diameter	215 mm
Sound power level (LWA)	99 dB(A), k = 3
Suction hose length	4,5 m
Suction system compatible with vacuum cleaner	Yes
Triangle backing pad size	293 mm
Variable speed	Yes
Velcro-type fastening	Yes
Rated power	710 W
