

BLADE FOR TITANIUM BYPASS PRUNER VILTPT01

VITO`s Blade for Titanium Bypass Pruner is a replacement part, designed to ensure effective cutting of vegetation. Compatible with VITO`s Titanium Bypass Pruner, this SK5 steel blade with titanium coating ensures resistance to wear and corrosion. Therefore, it is ideal for extending the service life of the pruner, even with intensive use, while maintaining cutting reliability.

Key features

- > High-quality SK5 steel with titanium coating;
- > Clean and efficient cutting of branches of different thicknesses;
- > Superior resistance to wear and corrosion;
- > Easy replacement, maintaining original performance.

Specifications

Compatible with	VITPT01
Material	SK5 Steel, Titanium
