

PETROL WATER PUMP 2" - 163CC - 4ST

VIMB2LA

Equipped with a 4-stroke combustion engine and a rotation of 3,600 rpm, this model offers an impressive maximum flow rate of 30,000 L/h, meeting demanding water displacement needs. With a suction height of up to 8m and a pumping height of up to 26m, this water pump guarantees efficiency, and is the perfect choice for large-scale irrigation, drainage in wide areas or supplying clean water to bigger systems. The sturdy design and powerful motor ensure reliable performance, making this model the ideal choice for intensive, long-term applications.

Key features

- > **Efficiency and versatility:** Allows pumping of large volumes of clean water;
- > **Safe and Functional Design:** Besides serving as a transport strap, this structure is designed to protect the machine from damage and prevent possible injuries to the user.

Specifications

Autonomy	3 h
Dimensions	470 x 370 x 390 mm
Engine	4-stroke combustion
Engine displacement	163 cc
Fuel	Unleaded petrol
Fuel tank capacity	3,6 L
Max. particle size	3 mm
Maximum flow rate	30000 L/h
Maximum lifting height	26 m
Maximum suction height	8 m
Outlet thread	2" / 50 mm
Packaging dimensions	480 x 390 x 400 mm
Product weight	21,6 Kg
Rated power	5,5 cv / 4,1 kW
Rotation speed	3600 rpm
Sound power level (LWA)	98.4 dB
Suitable for	Clean water
Weight with packaging	23,5 Kg

Package Contents

Filter
Spark plug wrench
Hose connectors with seals (x2)
Clamps (x3).
