

DIESEL WATER PUMP 2\" data-bbox="495 132 777 168"/>

Equipped with a 4-stroke combustion diesel engine and a rotation of 3,600 rpm, this model offers a maximum flow rate of 30,000 L/h, meeting large volume needs with ease. With a maximum suction height of 7 metres and a pumping capacity of up to 30 metres, this water pump is ideal for demanding applications such as large-scale irrigation, drainage, and the transfer of clean water in larger capacity systems. The diesel engine provides greater autonomy and efficiency in long-duration tasks, making it the ideal solution for those who need a sturdy machine for intensive working conditions.

Key features

- > **Electric start:** It saves and optimises working time;
- > **Safe and Functional Design:** Besides serving as a transport strap, this structure is designed to protect the machine from damage and prevent possible injuries to the user.

Specifications

Autonomy	13 h
Dimensions	570 x 520 x 650 mm
Electric start	Yes
Engine	4-stroke combustion
Engine displacement	246 cc
Fuel	Diesel
Fuel tank capacity	13 L
Max. particle size	4,5 mm
Maximum flow rate	30.000 L/h
Maximum lifting height	30 m
Maximum suction height	7 m
Outlet thread	2" / 50 mm
Packaging dimensions	585 x 540 x 675 mm
Product weight	54 Kg
Rated power	5 cv / 3,7 kW
Rotation speed	3600 rpm
Sound power level (LWA)	103 dB
Suitable for	Clean water
Weight with packaging	57 Kg

Package Contents

Filter
Spark plug wrench
Clamps (x3)
Tool kit.
