HIGH-PRESSURE WASHER WR2 130 BAR

VIML130WR2

The 1800W induction motor and aluminium pump guarantee the required reliability and durability. It also includes a hose (5m), wheels and handle for easy handling and transport of the machine.

Key features

➤ This machine with its aluminium induction motor, with a nominal power of 1800W and 130 bar, performs its functions with high quality. - The body and pump head are made of aluminium, ensuring a longer life of the product. - The maximum flow rate of 6.5 l/min allows excellent results. - It has a 5 metre hose, making it possible to use it in the most demanding places. - Its transport handle and wheels allow easy transport of the equipment. - Ideal for those who want a quick and effective cleaning.

Specifications

Ajustable handle	Yes
Automatic stop and adjustable jet	Yes
Body	Aluminium
Carrying handle	Yes - Telescopic
Engine	Induction (aluminium)
Flow rate	5,2 L/min
Head	Aluminium
Height	720 mm
Hose	PVC (5 m)
IP code	IPX5
Length	410 mm
Max. inlet water pressure	7 bar
Maximum flow rate	6,5 L/min
Maximum pressure	130 bar
Operating pressure	95 bar
Operating temperature	5 - 50 °C
Power cord	5 m
Product weight	15.911 kg
Rated power	1800 W
Sound power level (LWA)	86 dB(A), k = 3
Supply voltage	230 V AC 50 Hz
Weight with packaging	17.911 kg
Width	360 mm
