

2.0 MAGNIFYING LENS FOR AUTO-DARKENING WELDING HELMETS VIMSETC AND VIMSETCP

VIMSE.LA20

The VITO 2.0 magnifying lens provides an enlarged and clear view of the welding area, ensuring higher accuracy and visual comfort. Compatible with VIMSETC and VIMSETCP electronic welding helmets, it is ideal for detailed welding tasks requiring precision. Made from heat- and spark-resistant materials for maximum durability and protection in demanding environments.

Key features

- > 2.0x magnification for greater precision.
- > Compatible with VIMSETC and VIMSETCP helmets.
- > Improves visibility and reduces eye strain.
- > Durable, heat-resistant materials.
- > Ideal for professional welders and workshops.

Specifications

Compatible with

VIMSETC, VIMSETCP
