

CALIPERS 150MM WITH AUTOMATIC LOCK

VIPQ150BA

VITO`s 150mm Calipers with Automatic Lock is suitable for quick and accurate measurements in various environments and materials. This tool stands out for its precision and ease of use in measurement work, whether in inches or millimetres, offering a clear and intuitive reading. In addition, it features an automatic locking system that secures the jaws at the exact measurement point, preventing accidental deviations and ensuring more reliable results.

Key features

- > Automatic lock, ensuring reliable results;
- > Greater accuracy and consistency in measurements;
- > Conversion functionality between millimetres and inches;
- > Easy, quick, and intuitive reading;
- > Sturdy construction for greater durability.
