

STAINLESS STEEL DUAL SCALE RULER

VIRIDE100

VITO`s 100 cm Dual Scale Ruler (VIRIDE100) is essential for high-precision measurements in projects that require greater reach. With clear, easy-to-read markings, this ruler offers two scales, one in centimetres and the other in inches, allowing an immediate adaptation to the different requirements of each task. Its length of 100 cm is ideal for longer measurements, and it is widely used in sectors such as carpentry, construction, bricolage, and other activities that require precision on large surfaces. Made from stainless steel, it stands out for its resistance and durability, even in demanding working environments. In addition, the ergonomic and practical design makes it easy to handle and transport, meaning it is the perfect ally for anyone who needs quick and accurate measurements.

Key features

- > Greater reach for long measurements: at 100 cm long, this ruler allows you to take precise measurements on large surfaces, ideal for projects that require greater coverage;
- > Two scales for versatility: it offers markings in centimetres and inches, allowing quick adaptation to different measurement standards;
- > Professional precision: the crisp, clear markings guarantee exact measurements, ensuring high-precision results in all types of work;
- > Resistance and durability: made from stainless steel, the ruler is extremely wear-resistant, offering a long service life even in demanding working environments;
- > Easy to handle and carry: despite being 100 cm long, the ruler has an ergonomic and lightweight design, making it easy to carry and handle, making work more efficient.
