

ACRYLIC SPRAY PAINT - HIGH TEMPERATURE

VISATAL

High-temperature acrylic spray paint is the ideal solution for those seeking durability and resistance in environments exposed to intense heat. With a silicone resin-based formulation, this paint offers excellent adhesion and a perfect finish, making it suitable for a variety of applications, such as fireplaces, stoves, ovens, and radiators. With an impressive resistance to temperatures up to 600°C, this enamel is designed to withstand heat without compromising its integrity, ensuring long-lasting results. However, it is important to emphasize that the paint should not be exposed directly to flames to avoid damage. The 400ml can covers an area of 1.5 to 2m², providing high coverage and efficiency. Additionally, the paint dries quickly, allowing you to complete your projects without long waiting periods. Ideal for both indoor and outdoor use, this paint is perfect for those who want a high-quality finish that withstands the elements and wear. With a tamper-proof cap, the paint maintains its quality and safety, making it a practical and reliable choice for your painting needs. Transform your metal surfaces with this high-temperature acrylic spray paint and enjoy a professional and lasting result.

Key features

- > Color: Aluminium;
- > Enamel based on silicon resin;
- > Suitable for fireplaces, cookers, ovens, car radiators, etc;
- > Resistance to temperatures up to 600°C;
- > Do not expose directly to flames;
- > Perfect finish;
- > Interior and exterior use;
- > Excellente coverage 1,5-2m²;
- > Quick drying;
- > High temperature resistant;
- > Capacity 400ml;
- > Tamper-proof cover.

Specifications

High-temperature resistant tape	Up to 600°C
Packaging	400 ml
Quick drying	Yes
Suitable for	Fireplaces, cookers, ovens, car radiators, etc

Variants
