

# SAW BLADE FOR TREE PRUNER

## VISSPA

VITO`s Saw Blade for Tree Pruner (VISSPA) is compatible with the Tree Pruner (VISPA), suitable for carrying out gardening tasks. This saw blade, made from extra-hard SK5 tempered carbon steel, stands out for its resistance and durability. The saw blade features a design with sharp teeth on three sides and a Japanese toothed shape, providing precision and efficiency when carrying out tasks. In addition, the saw blade is characterised by its lightness and minimal maintenance requirements, optimising the user`s work.

### Key features

- > SK5 carbon steel, guaranteeing durability and resistance;
- > Efficiency ensured by sharp teeth on 3 sides;
- > Clean, precise cuts thanks to the Japanese toothed shape;
- > Compatible with VITO`s Tree Pruner (VISPA).
