

SWIVEL GRASS SHEAR 360°

VITCS360

The VITO GARDEN rotary grass shear is the perfect tool for anyone looking to keep their garden looking immaculate. With adjustable rotating blades at 360°, this shear allows easy access to all the nooks and hard-to-reach areas of your green space, ensuring precise and effective cutting with every use. The ergonomic handle is designed for comfort and ease of handling, reducing fatigue during long periods of use. The innovative design with position lock and automatic release provides an even more intuitive and secure user experience, allowing you to work with confidence. The carbon steel blades ensure durability and wear resistance, maintaining cutting performance over time. The 360° rotation system allows cutting at any angle, making gardening tasks simpler and more efficient. Whether trimming grass in hard-to-access areas or giving a perfect finish to your flowerbeds, the VITO GARDEN rotary grass shear is the right choice for any gardening enthusiast. Experience the freedom and precision this tool offers and transform your garden into an even more beautiful and well-kept space. With the VITO GARDEN shear, each cut is a step toward the garden of your dreams.
